Sketching & Prototyping

Sketching User Flow

This is a sketch for an app that rates how environmentally friendly a product is using a barcode

TASK 1: SKETCH USER FLOW

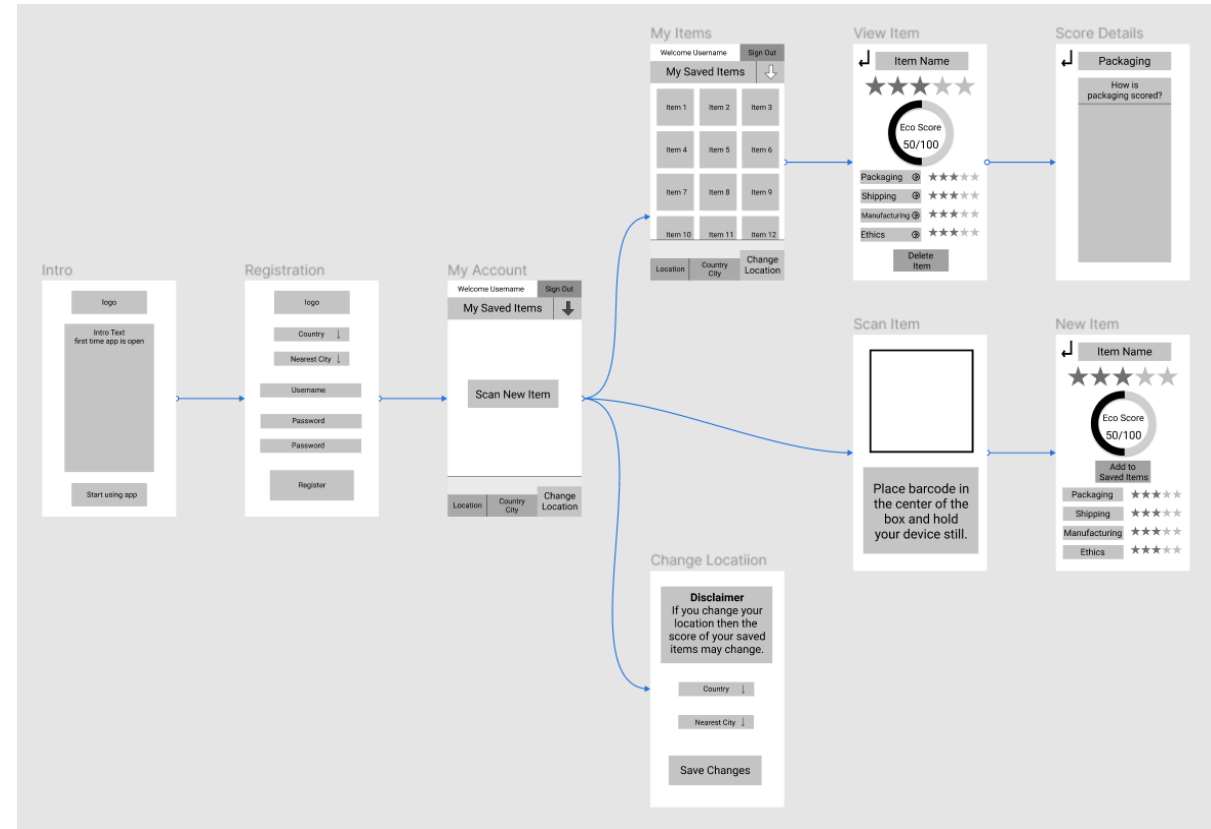

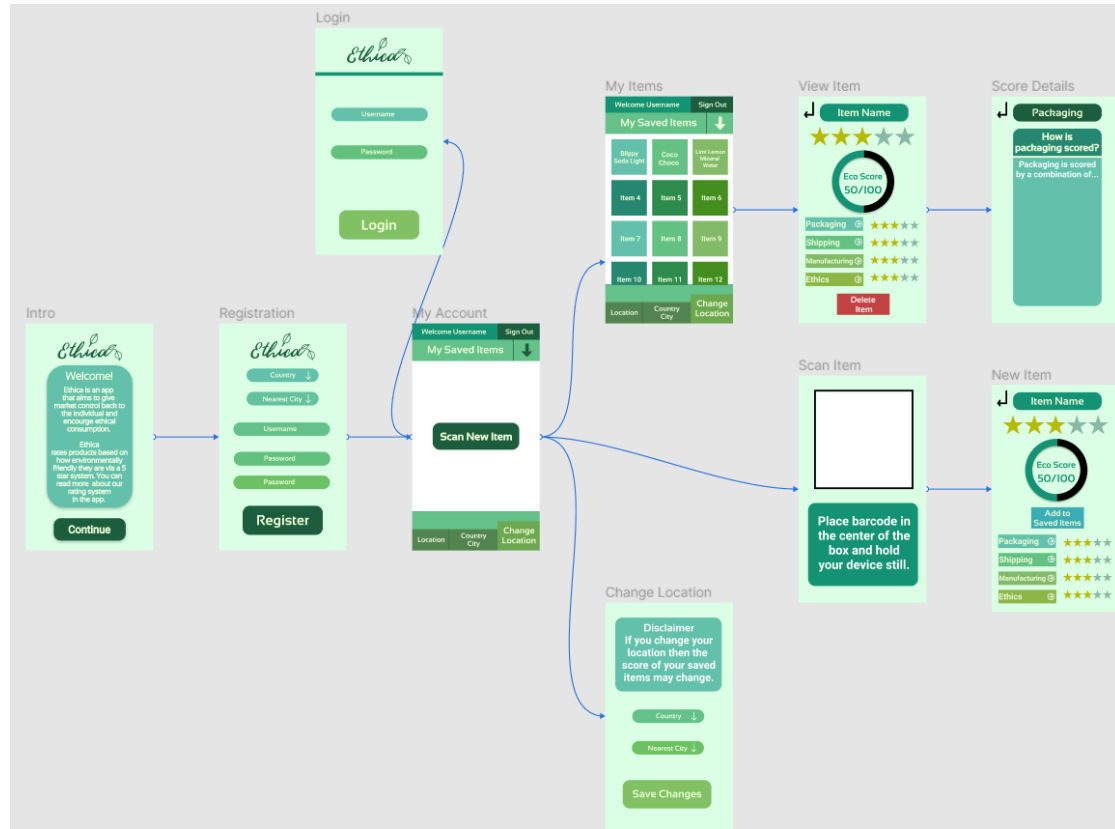

- Break into teams of 3.
- Come up with a product idea.
- Go to Miro.com, one person will have to make an account.
- Create a Miro board.
- Share Miro board link over zoom breakout room.
- Brainstorm the user flow of your app as a group.

You will have 20 minutes.
